

The Commerce EDR Safe is an advanced design for burglar and fire protection embodying many new features. 'Explosive and Drill Resisting', as the name implies, it represents the very best security value obtainable in a medium-priced safe. The door, locking, boltwork and body specifications are the result of intensive study, research and testing over a period of years and are backed by the Chubb reputation for high quality and reliability.

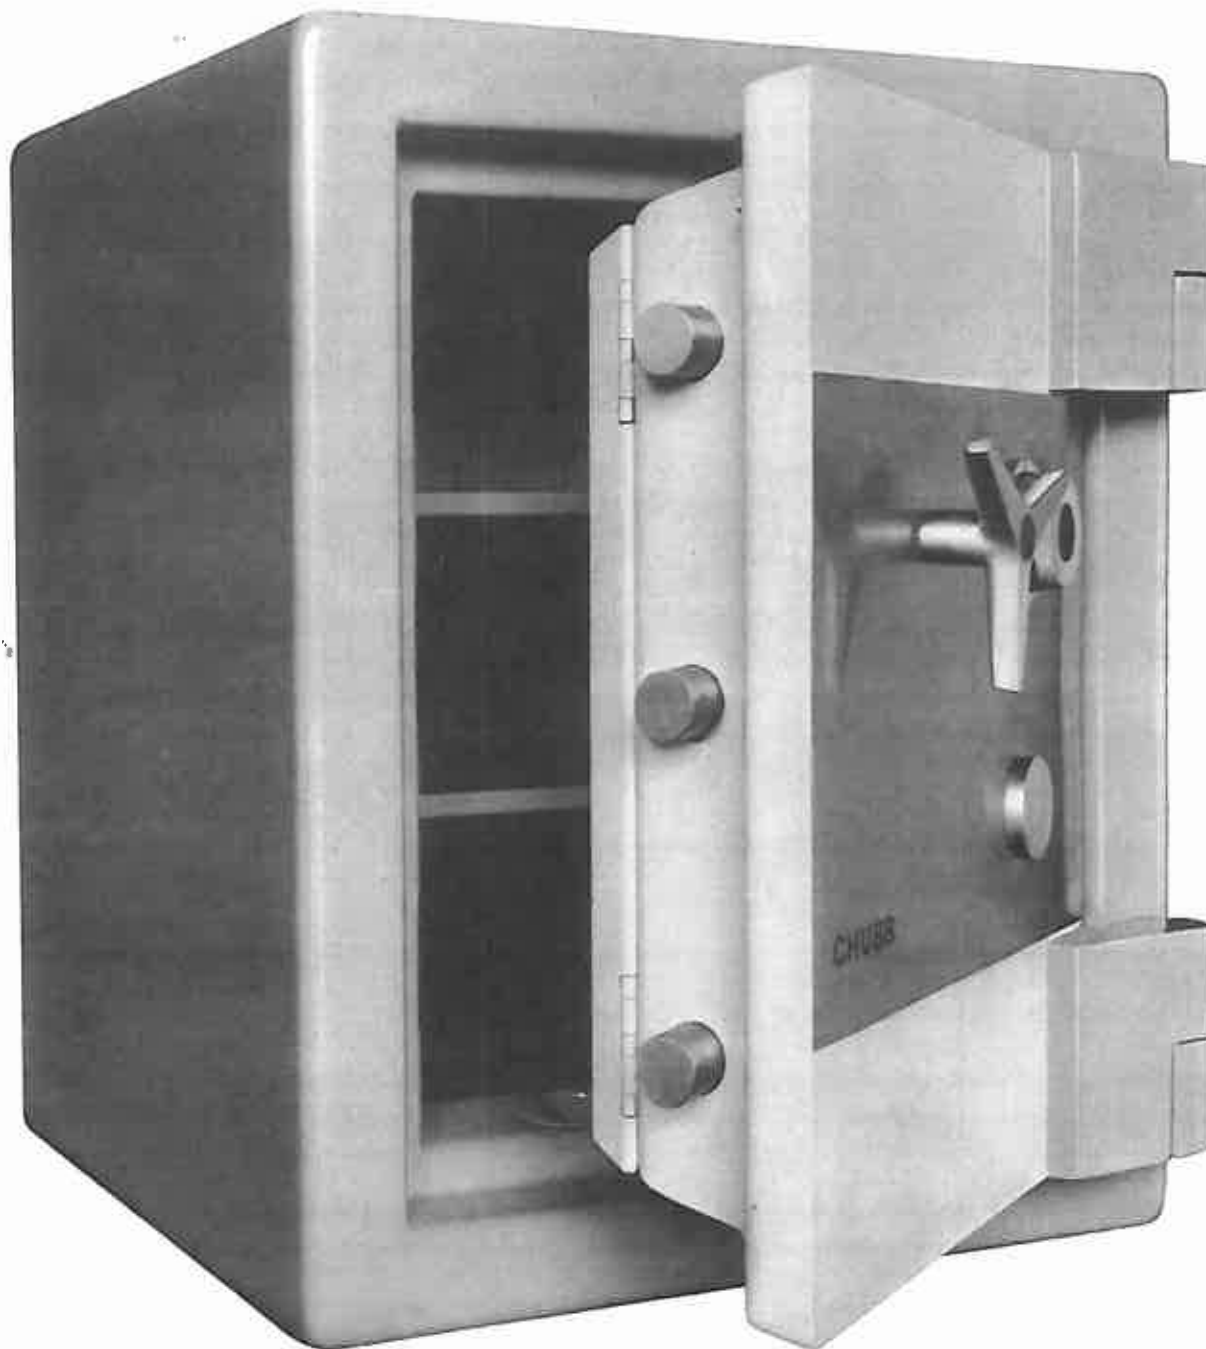

**Extra thick slab of new special anti-drill material protects vital points of locking and boltwork in the door.**

**Advanced boltwork design ensures maximum resistance to explosive attack.**

**Strongest known methods of body assembly afford high security against drills, cutters and explosives.**

#### **Door**

The overall thickness of the door is  $6\frac{3}{4}$  in (171 mm). Constructed from thick inner and outer plates and including the special anti-drill material, a composite slab  $1\frac{3}{8}$  in (46 mm) thick protects the vital locking and boltwork on the inside of the door. Fire protection is built-in as part of the door design.

Furniture projects 2½ in (70 mm) from front face.

**Safe 2215.** Door swing 20½ in (527 mm). Overall width of safe and door with door open at 180° is 44 in (1118 mm).

**Safes 3420, 4620, 5520.** Door swing 26½ in (654 mm). Overall width of safe and door with door open at 180° is 54 in (1372 mm).

Dimensions	Outside			Inside		
	High	Wide	Deep	High	Wide	Deep
